## Newburyport Elections Meet and Greet

By Stewart Lytle, Sr. Reporter

**NEWBURYPORT** – Most of the candidates for mayor and city council gathered last week at the Rip Tide on Plum Island for a meet and greet with dozens of voters over pizza hosted by The Townie, a web-based platform for local opinions, ideas and constructive debate.

Both candidates for mayor, incumbent Sean Reardon and councilor Jim McCauley, addressed the crowd. Reardon outlined the achievements of his first term, which included finishing Market Landing Park on the Merrimack River waterfront.

McCauley agreed that Reardon had “done some good things,” but he called Reardon’s first term “transitional.” He said, “It is time to move on.” He promised to curb unnecessary spending.

Seven candidates are running for five at-large seats on the council. Five candidates attended the meet and greet – Heather Shand,

Town of Groveland

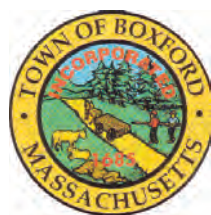

**GROVELAND** – On Saturday, September 6th, the Town of Groveland celebrated its 175th year with a parade and it was a celebration to remember!

Volunteerism has always been at the core of what makes Groveland special. It is the willingness of residents

to step forward—to give of themselves for the benefit of others—that allows the community to thrive and remain the unique place so many are proud to call home. Thanks to this spirit, Groveland’s milestone celebration was not only possible, but unforgettable.

The Town extends its deepest gratitude to everyone who contributed in

## Distinguished Budget Presentation Award

### Boxford Wins National Recognition for Excellence in Budgeting/Financial Transparency

**BOXFORD** – The Town of Boxford is proud to announce that it has been awarded the Distinguished Budget Presentation Award by the Government Finance Officers Association (GFOA) for its Fiscal Year 2026 budget. This prestigious award reflects the Town’s commitment to transparency, fiscal responsibility, and excellence in public finance.

The award is the highest form of recognition in government budgeting and is a significant achievement for Boxford. To earn this honor, the Town’s budget had to meet nationally recognized guidelines that assess how well the budget serves as a policy document, financial plan, operations guide, and communications device.

Budget documents must be rated

“proficient” in all four categories and in fourteen mandatory criteria to receive the award.

“This recognition from the GFOA is a testament to the hard work and dedication of our staff and elected officials,” said Town Administrator Matt Coogan. “We are committed to making our financial information accessible and understandable to residents, and this

Georgetown Selectman Responds

To the Editor:  
I wanted to follow-up on the article written by Stuart Lytle published titled “Is Selectboard becoming Dysfunctional?”. Although balanced, it did not get to the fundamental problem and paints a picture of Georgetown leadership with infighting, public social media attacks on (select-woman) Ms. Bancroft and the lingering fallout from the \$10,000 Stirm report that exposed both the Board of Select Board and Conservation Commission of being bogged down by pathetic drama that can barely function – **both boards are crippled by dysfunction.**

From stalled policies to neglected town priorities the continued drama only strangles Georgetown’s progress and I will be the first to tell you the Selectboard is currently failing its residents. The root cause of this is not just personality clashes, it is the relentless victimhood, posturing and virtue signaling from members like Bancroft and Repplier who blatantly dodge accountability of their beloved Conservation Commission; they would rather paint themselves as having moral superiority at every opportunity.

That article only highlights how Repplier leveraged a heated email exchange about a resident’s critique of my push for Conservation Commission accountability and oversight and used that as an opportunity to play victim and insisted a third-party be present for our meetings to work on

town business like refreshing policies.

She did apologize to me the very next day after the 9/11 ceremony only to then tell the reporter that she does not have the same recollection. Her actions not only illustrated her lack of interest in collaboration but rather performative fragility and signaling virtue to dodge the hard work of governance, accountability and oversight. And if that was not enough, she stopped that last meeting to tell a resident in the audience that she found a shirt being worn to be disrespectful while taking a posture both in that meeting and via email (the next day) to attempt to limit people’s action in the spirit of “respect.”

And Bancroft is worse – much worse.

Dating back to 2018 anyone who she perceives as a threat to the Conservation Commission, she tries to intimidate them either through her conduct at meetings (like the last one) or by filing police reports against them. During her tenure as a member of the Conservation Commission, whenever anyone inquires about potential Conservation Commission misgivings, she obstructs rather than cooperates.

There were significant allegations initially brought up in 2018; in 2022 and in 2023 additional inquiries were performed by the town administrator, and the town voted to hire the Stirm Group to investigate the Conservation Commission. What did Bancroft do each time – rather than disprove any

alleged wrongdoing, she filed a police report against them which fits the definition of obstruction. Did I mention that Bancroft signed the former Conservation Commission Agent’s timecards along with allegations of payroll irregularities? The number of police reports that Bancroft has filed against town leadership and members of the community is baffling. Rather than disprove any alleged allegation, she would rather waste taxpayer’s safety resources by filing reports against her perceived threats or enemies resulting in no criminal charges than having them on the street protecting the citizens of this great town.

What I have described is just a snippet of what the dysfunction that the Board of Selectmen have known about and not addressed in the last few years. And when I pressed the issue in a recent meeting, Chairman Hoover, although he acknowledged there was a problem dating back several years, he rather quickly shifted gears to talk about Watergate and how Ford spared Nixon rather than actually fixing the problem – Nothing to see Here folks, move on. He would rather watch Bancroft be elevated from vice chair to chairman of the Conservation Commission. Is this the outstanding accountability we

have come to expect from our highest elected and appointed official?

Despite this small snippet of dysfunction, I’m working diligently with the board to craft policies and guardrails to prevent such failures in the future. I ran on stronger oversight for commissions, tighter (financial) controls, and clear ethical standards. Exposing past bad acts, like the Stirm report’s waste of time and money or the Conservation Commission not addressing complaints and sweeping everything under the rug.

This isn’t about settling scores; it’s about showing why these reforms are urgent. We cannot fix what we do not face head-on. Georgetown deserves a Select Board that prioritizes results over drama and what is right for the town rather than keeping their friends happy.

I am committed to bridging divides and delivering policies that protect our town, but residents must demand accountability from those who’d rather play victim than do the work; they should ultimately look out for your best interests.

Let’s rebuild trust together—before this dysfunction defines us.

Sincerely,  
Michael W. Donahue  
Georgetown Selectman

Shared Letter of Disappointment

Copy of Letter Sent to the Georgetown Select Board by Ida Wye

To the Editor:

I am writing this to the BOS to express my disappointment with your inability to shepherd this town through many decades of challenges. It is obvious that the election process has been a junior high popularity contest and increasing the board from 3 to 5 has only exacerbated this. I am incredulous as I consistently witness this televised display, absent of any proactive leadership or critical thinking.

Your board needs to insist that each volunteer commission, committee and board appear in an open forum and answer cogent questions.

The CPC is in a quandary. I recommend you begin by scheduling those members to come before you immediately. The chair of the CPC is also a member of the Fin Com, and when she met with the ConCom, she curiously was unable to answer any questions regarding the “Wreck” (sic) Path. This meeting was televised. It is unacceptable for any member of any volunteer group, appointed or elected, to be unprepared and uninformed. You are responsible for your appointed volunteers.

My understanding is that the CPA covers 3 categories: open space-recreation, historic, and affordable housing. Exactly how much money has been spent on each category and on what projects-past-present-languishing in limbo?

Let’s focus on the “Wreck” (sic) Path. I found information on a Facebook page. The earliest date mentioned was 2004. Monies were disbursed in 2008 and 2010. Exactly how much money was disbursed and for what? What has been accomplished and how much money has been spent as of Aug. 2025? Given the first entry was 2004, why has this process been inexcusably lengthy 2004-2025? CPA should go away... that has a nice ring to it. It is a boondoggle “managed” by a club of volunteers who find ways to justify spending these tax dollars for their pet projects. Are they unaware of GoFundMe?

The ConCom has been mysteriously targeted by your board and your town administrator, who has been especially hostile. Both you and your town administrator work for the residents of Georgetown.

“Every tyrant fears a thinker more than an army.” Voltaire

Clearly, this is why your TA and the BOS harassed the former con com agent and chair and rejected me when I initially applied to be appointed to the con com.

(I am currently a member of the Con Com). Given your TA cannot vote, it was grossly inappropriate that he commented on my resume and queried me. He intimated he knew much of what I knew because he had a roommate who attended Stockbridge. This was bizarre especially because I graduated with a B.S. from the U. Mass. College of

Susan E. Maloney

May 5, 1947 – October 8, 2025

Susan E. Maloney passed away peacefully in Salem, NH, on October 8, 2025, at the age of 78. She was born on May 5, 1947, in Boston, MA, and was formerly of Ipswich and Boxford, MA. From the start, she was destined to touch the lives of all whom she encountered with her warmth and kindness.

Susan grew up in Warwick, Rhode Island, and went on to study at the College of New Rochelle, where she excelled academically. Intelligent and articulate, she found success in speech and debate competitions. She was the winner of the state speech writing competition and went on to compete nationally. Susan later built a meaningful career with the U.S. Department of Labor.

Susan’s greatest joy and proudest achievements were found in her family. She is survived by her children, Patrick Maloney and his wife Julia of Atkinson, NH; James Maloney and his wife Melissa of Newburyport, MA; and Katherine Maloney and her wife Kathleen of Sandown, NH. She is also survived by her four grandchildren, Taylor, Callan, Cecilia, and Lennon, who brought her great joy.

She was preceded in death by her beloved husband, Robert Maloney; her sons, Mark and Kevin Maloney; her brother, John Regan; and her sister, Janet Regan.

Susan was known for her warmth, kindness, and quiet strength. Her legacy lives on in the love she gave and the care she showed to those around her. Susan loved the ocean and spent many happy days boating with her husband, enjoying the fresh air and open water. She valued time at the beach with friends, took pride in her garden, loved music, and found joy in cooking delicious meals for her family and friends.

Though she will be deeply missed, her friends and family find comfort in knowing she rests peacefully and that the love she gave continues to surround them.

Relatives & Friends will gather Wednesday, October 15, 2025, from 5:00 - 7:00PM at F. S. Roberts & Son Funeral Home. A Funeral Service will be held Thursday, October 16, 2025, 11:00AM at F. S. Roberts & Son Funeral Home. Interment will follow at Rowley Burial Ground.

DISAPPOINTED

Food and Natural Resources. I did not waste 2 years of my life learning how to cut grass...

We do not have a DPW. We have a highway department. Clearly, your expectations for the highway department are unreasonable. The department is overextended and has too much road, sidewalk and plowing work to be additionally burdened with lawn and tree management and care. The con com is uniquely suited to advising and assisting the highway department.

There ought to be collaboration with the highway department, the con com and the schools. The goal should be sustainability. Currently, lawn management is performed by Clark Lawn Care 978 306 LAWN. How much is Clark paid and what chemicals are applied? Why is the grass cut so frequently and so short by the highway dept.? Who hired Clark and why?

A collection of invasives, deliberately

planted as ornamentals, can be seen from your town hall "designer" windows; Red Barberry, Pink Spirea and Bradford Pear. The con com should provide oversight and management of public green spaces and trees. These invasives should be removed and native plants should be planted. The con com agent should be the tree warden. Trees should be properly pruned and cared for. Georgetown should adopt the Tree City

USA program and the con com has the time and the expertise to assist the town in this process. Lawn management should be done organically. The con com should collaborate with the schools and transition some of these lifeless lawns to native plants and pollinator meadows. This would provide both a learning opportunity and a valuable service to the community.

The shabby downtown business district is defined by filling stations, package stores, pizza and sub shops, a couple of entropy houses and an odoriferous,

formerly rat infested and extremely noisy chicken coop. This is a direct reflection on your lack of vision, leadership and accountability. If that weren't enough to define Georgetown as a mess, we can now add an enormous transfer station to this disastrous cocktail.

"No taxation without representation" Georgetown is either reactive or inactive, but never proactive. How can you expect anyone to be forced to pay additional property tax! Your impertinence would be comical,

if it were not so pathetic. What do property owners owe you, your volunteers, your loitering town hall employees or your town administrator? At the very least, you ought to create a tax relief program to assist people who struggle financially -and not only seniors. Your tiresome solution of throwing more money at problems through raising property taxes postpones inevitable failures and solves absolutely nothing.

Taxed resident, Ida Wye  
Georgetown, Mass.

award validates that effort."

For the first time, the Town of Box-

ford created a dedicated budget website in partnership with ClearGov, a leading provider of digital budget transparency tools. The site was launched to ensure residents had easy access to financial information ahead of the Annual Town Meeting. The FY26 budget website can be viewed at: <https://town-boxford-ma-cleargov.com/7405/288960/d>

"Our goal was to make the budget process more transparent and user-friendly," said Assistant Town Administrator/Finance Director Brendan

Sweeney. "By leveraging ClearGov's platform, we were able to present our budget in a way that's both visually engaging and informative. We're proud that our efforts have been recognized on a national level."

Boxford joins over 1,900 communities across North America that have received the GFOA's Distinguished Budget Presentation Award. The Town remains committed to continuous improvement in financial planning and public engagement. ♦
